All puzzles in this book are original and were generated and checked by computer: every word appears exactly once in its grid.

Typeset in Atkinson Hyperlegible, a typeface designed by the Braille Institute for low-vision readers (SIL Open Font License).

Independently published.

How to Play

- **Find every word**

  Each puzzle has a list of 12 holiday words. All of them are hidden in the grid of letters.

- **Forward only**

  Words always read forward: across from left to right, down from top to bottom, or diagonally. No word is ever spelled backward.

- **Two-word answers**

  Spaces and punctuation are left out of the grid. For example, CANDY CANE is hidden as CANDYCANE.

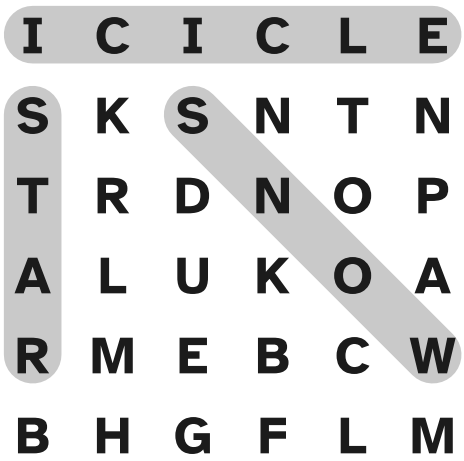

- **Easy, then a little harder**

  Puzzles 1 to 40 use three directions: across, down, and diagonally down. From puzzle 41, words can also run diagonally up (still from left to right).

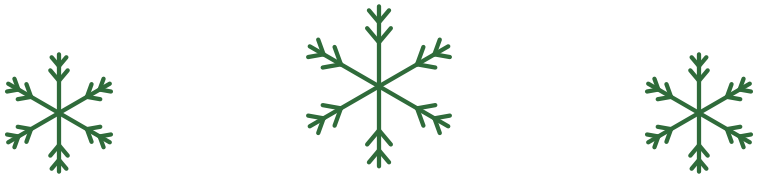

- **Check your answers**

  Circle each word you find and tick the box in the list. All solutions start on page 85.

Example: ICICLE across, STAR down, and SNOW diagonally.

This Book Belongs To

Pour a cup of cocoa, find your favorite chair, and enjoy eighty Christmas word searches printed in big, clear letters.

Every word reads forward, every grid has one puzzle per page, and the solutions are at the back of the book.
